EXCEPTION PLAN

Sample Plans

Date of Exception:

November 7th

Why I am making this exception:

Family trip for dad's birthday that includes wine tasting. I want to drink wine and will also enjoy the buffer of comfort with my family because of my negative emotions, which I will work on while I am there.

Action plan on exception day:

I will drink a maximum of three glasses of wine and no more.

Consequences I'm signing up for:

I will feel terrible the next day physically and that's OK. I know I will sleep terribly. I will do my best to drink lots of water and stop drinking early so it won't affect me as much.

Date of exception:

June 3rd

Why I am making this exception:

It's my birthday dinner.

Action plan on exception day:

I will have up to two glasses of wine.

Consequences I'm signing up for:

I will have a lower quality of sleep and may not feel my best the next day.
